What does “in bulk” mean?

When we say a color is available “in bulk,” we mean we’ve already produced and stocked it in loose form—stored in bins, assembled to order based on your specific requests. This is different from our In-Stock collection, where the inventory is pre-sheeted, boxed, and ready to ship from our location in Southern California.

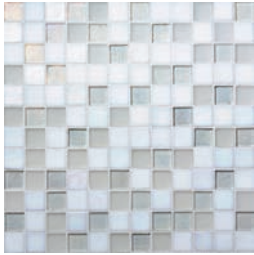

Flip through the next few pages to explore all the colors we offer—the possibilities are endless!
