Palm Canyon

Palm Canyon brings elevated style to any space. Inspired by the mid-century modern architecture of Palm Springs and the striking topography of desert mountains and cool blue pools, these hand-sculpted, three-dimensional, ceramic tiles are a celebration of iconic Mid-Century motifs. The thoughtfully-designed collection offers a multitude of pattern possibilities, and allows for the creation of unique, personalized spaces. Semi-translucent glazes emphasize the hand-crafted textures and dimensionality of each tile, while our palette of quiet, semi-matte hues connects harmoniously with both minimalist and maximalist spaces.

Front Cover: Orbit, Quadrant, and Liner in Satin White & 4 ¾ x 9 ½ Field and Liner in Pebble
