

silky stone

Silky Stone achieves limestone effect using digital technology. Inspired by the look and feel of nature combined with the practicality of modern architecture, Silky Stone is the result of a sophisticated balance between essentiality and minimalism. Silky Stone's almost perfect flatness and precise grinding conceals the joints, creating continuity on surfaces using porcelain stoneware.

Made in Italy
Color Body Porcelain
Rectified
Natural, Rigato & Outdoor Finish

RECOMMENDED USES
Residential & Commercial
Interior Wall
Countertops
Showers
