crafted

urban look, retro flavour

Emotional surfaces

Write the Untold story of your space...

Minimal, romantic, retro or modern fusion,
Which is yours?

CRAFTED
urban look, retro flavour

The beauty of hand crafted clay, the charm
of timeless bricks and our passion on display.

Subway style , fusion of tradition and
cosmopolitan touches.

Decorative black and white motifs and
metallic adventures in the backstage.

Emotional surfaces

Escribe la historia jamas contada de tu propio
espacio...

Fusiona lo minimalista, romántico, moderno
o retro, ... ¿Cuál es la tuya?

CRAFTED
urban look, retro flavour

La belleza de la arcilla trabajada a mano, el
encanto de los bricks atemporales y nuestra
pasión al descubierto.

Ensambla tradición con tintes cosmopolitas.

Motivos decorativos en blanco, negro y
aventuras metálicas entre bastidores.

WAREHOUSING

In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing. If the product is likely to be stored for a long period of time it should be suitably covered.

TILE FIXING

To ensure the products adhere correctly to the surface, it is essential to use specific adhesive and grouting material. This must also be suitable for the environment they will have to withstand. Fitting with traditional mortars does not ensure good adhesion.

All types of joints must be planned and carried out correctly: structural, perimeter, expansion and installation joints. Fitting tiles without joints is not advisable from any technical point of view as this may lead to various problems. We recommend a minimum installation joint of 2 mm (0,79 in).

MAINTENANCE AND CLEANING

Once the materials have been fitted, it is advisable to remove any remaining adhesive and grouting material by using a commercial descaling product designed especially, diluted with water . The descaling product must not remain in contact with the surface to be cleaned for more than 5 minutes.

As a general guideline, powder dertergents should not be used, not wire wool or abrasive materials. Generally a sponge will be sufficient with warm water and liquid neutral soap. Then rinse with plenty of clean water.

ALMACENAMIENTO

Para garantizar las características de su acabado, el producto debe mantenerse en su embalaje original hasta el momento de la colocación. Si el producto va a permanecer almacenado durante un largo periodo es conveniente hacerlo bajo cubierta.

COLOCACIÓN

Para garantizar una buena adhesión al soporte es necesaria la utilización de materiales de agarre y de rejuntado adecuados al ambiente al que vayan a estar sometidos. La colocación con morteros tradicionales no garantiza una buena adhesión.

Deberán planificarse y ejecutarse correctamente todo tipo de juntas: estructurales, perimetrales, de dilatación y de colocación. La colocación sin juntas es desaconsejable desde cualquier punto de vista técnico, pudiendo ser el origen de diversas patologías. Se recomienda una junta de colocación de 2 mm.

MANTENIMIENTO Y LIMPIEZA

Finalizada la puesta en obra se recomienda eliminar los restos de materiales de agarre y rejuntado con un desincrustante comercial diseñado expresamente para baldosas cerámicas, rebajado con agua, permaneciendo en contacto con la superficie a limpiar no más de 5 minutos.

Como norma general no deben utilizarse detergentes en polvo ni estropajos metálicos o abrasivos. Generalmente será suficiente con una esponja, agua tibia y un jabón líquido neutro. Posteriormente aclarar con abundante agua limpia.
