LOVE AFFAIRS

Love you to the moon and back!

Four shapes, seventeen finishes... FALL IN LOVE!

Dare to fall in love from your inner self to your surroundings; through shapes, colours, finishes and their endless matching possibilities.

Play and walk over woods, concrete, stones and marbles **all combinable between them**, to create your own fashionable romance around you.

Cuatro formatos, diecisiete acabados... ENAMÓRATE!

Atrévete a enamorarte de tu entorno, a través de formas, tonos, acabados y sus posibilidades sin fin.

Camina sobre maderas, cementos, piedras y mármoles, **todos combinables entre si** y crea tu romance en tu propio espacio.

WAREHOUSING

In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing. If the product is likely to be stored for a long period of time it should be suitably covered.

TILE FIXING

To ensure porcelain earthenware floor tiles adhere correctly to the surface, it is essential to use specific adhesive and grouting material. This must also be suitable for the environment they will have to withstand. Fitting with traditional mortars does not ensure good adhesion.

All types of joints must be planned and carried out correctly: structural, perimeter, expansion and installation joints. Fitting tiles without joints is not advisable from any technical point of view as this may lead to various problems. We recommend a minimum installation joint of 2 mm (0 5/64 in).

MAINTENANCE AND CLEANING

Once the materials have been fitted, it is advisable to remove any remaining adhesive and grouting material by using a commercial descaling product designed especially for ceramic floor tiles, diluted with water . The descaling product must not remain in contact with the surface to be cleaned for more than 5 minutes. To check that the chosen cleaning product will not damage the paving, we recommend previously testing an area that is hidden or not easily seen, or testing a tile that has not been fitted.

As a general guideline, powder detergents should not be used, not wire wool or abrasive materials. Generally a sponge will be sufficient with warm water and liquid neutral soap. Then rinse with plenty of clean water.

WARNING!

No claims will be accepted after materials have been installed.

ALMACENAMIENTO

Para garantizar las características de su acabado, el producto debe mantenerse en su embalaje original hasta el momento de la colocación. Si el producto va a permanecer almacenado durante un largo periodo es conveniente hacerlo bajo cubierta.

COLOCACIÓN

Para garantizar una buena adhesión al soporte es necesaria la utilización de materiales de agarre y de rejuntado para baldosas de gres porcelánico y adecuados al ambiente al que vayan a estar sometidos. La colocación con morteros tradicionales no garantiza una buena adhesión.

Deberán planificarse y ejecutarse correctamente todo tipo de juntas: estructurales, perimetrales, de dilatación y de colocación. La colocación sin juntas es desaconsejable desde cualquier punto de vista técnico, pudiendo ser el origen de diversas patologías. Se recomienda una junta de colocación de mínimo 2 mm.

MANTENIMIENTO Y LIMPIEZA

Finalizada la puesta en obra se recomienda eliminar los restos de materiales de agarre y rejuntado con un desincrustante comercial diseñado expresamente para baldosas cerámicas, rebajado con agua, permaneciendo en contacto con la superficie a limpiar no más de 5 minutos. Para verificar que el limpiador escogido no dañará al pavimento se requiere hacer una prueba previa en una zona oculta o poco visible o en una baldosa sin instalar.

Como norma general no deben utilizarse detergentes en polvo ni estropajos metálicos o abrasivos. Generalmente será suficiente con una esponja, agua tibia y un jabón líquido neutro. Posteriormente aclarar con abundante agua limpia.

¡ATENCIÓN!

No se aceptarán reclamaciones una vez instalado el material.

LET’S PLAY!
