## avalon

The reflective surface of the Avalon Marble Tile Collection evokes impressions of classic monuments. The finely polished marble of this collection is available in tiles, mosaics, moldings, and decorative pieces.

This collection invites pure creative freedom with the option for precision cut sizes and shapes as well as mosaic art. The 3-dimensional moldings provide a rich finishing touch.

Marble is a metamorphic stone with a timeless history in architecture and interior design. Some of the most famous sights of the world—including the Taj Mahal, Michelangelo's David, the Lincoln Memorial, and the Washington Monument—are made of marble. These are only a few examples of the colossal cultural and utilitarian impact that marble has had on human civilization.

We recommend the Avalon Marble Tile Collection for coordinated floors and wall and countertop applications in both residential and commercial settings. We welcome you to take advantage of this portfolio of design and the endless possibilities it provides you.

### Usage

- Residential Interior Floors / Walls
- Commercial Interior Floors / Walls
