YŌKO

Yoko, a common Japanese name with a poetic meaning related to nature and the sea, inspires the new collection that celebrates the delicacy and fragility of the art of origami. A technique that leads us to a state of calm and concentration, stimulating our creativity.

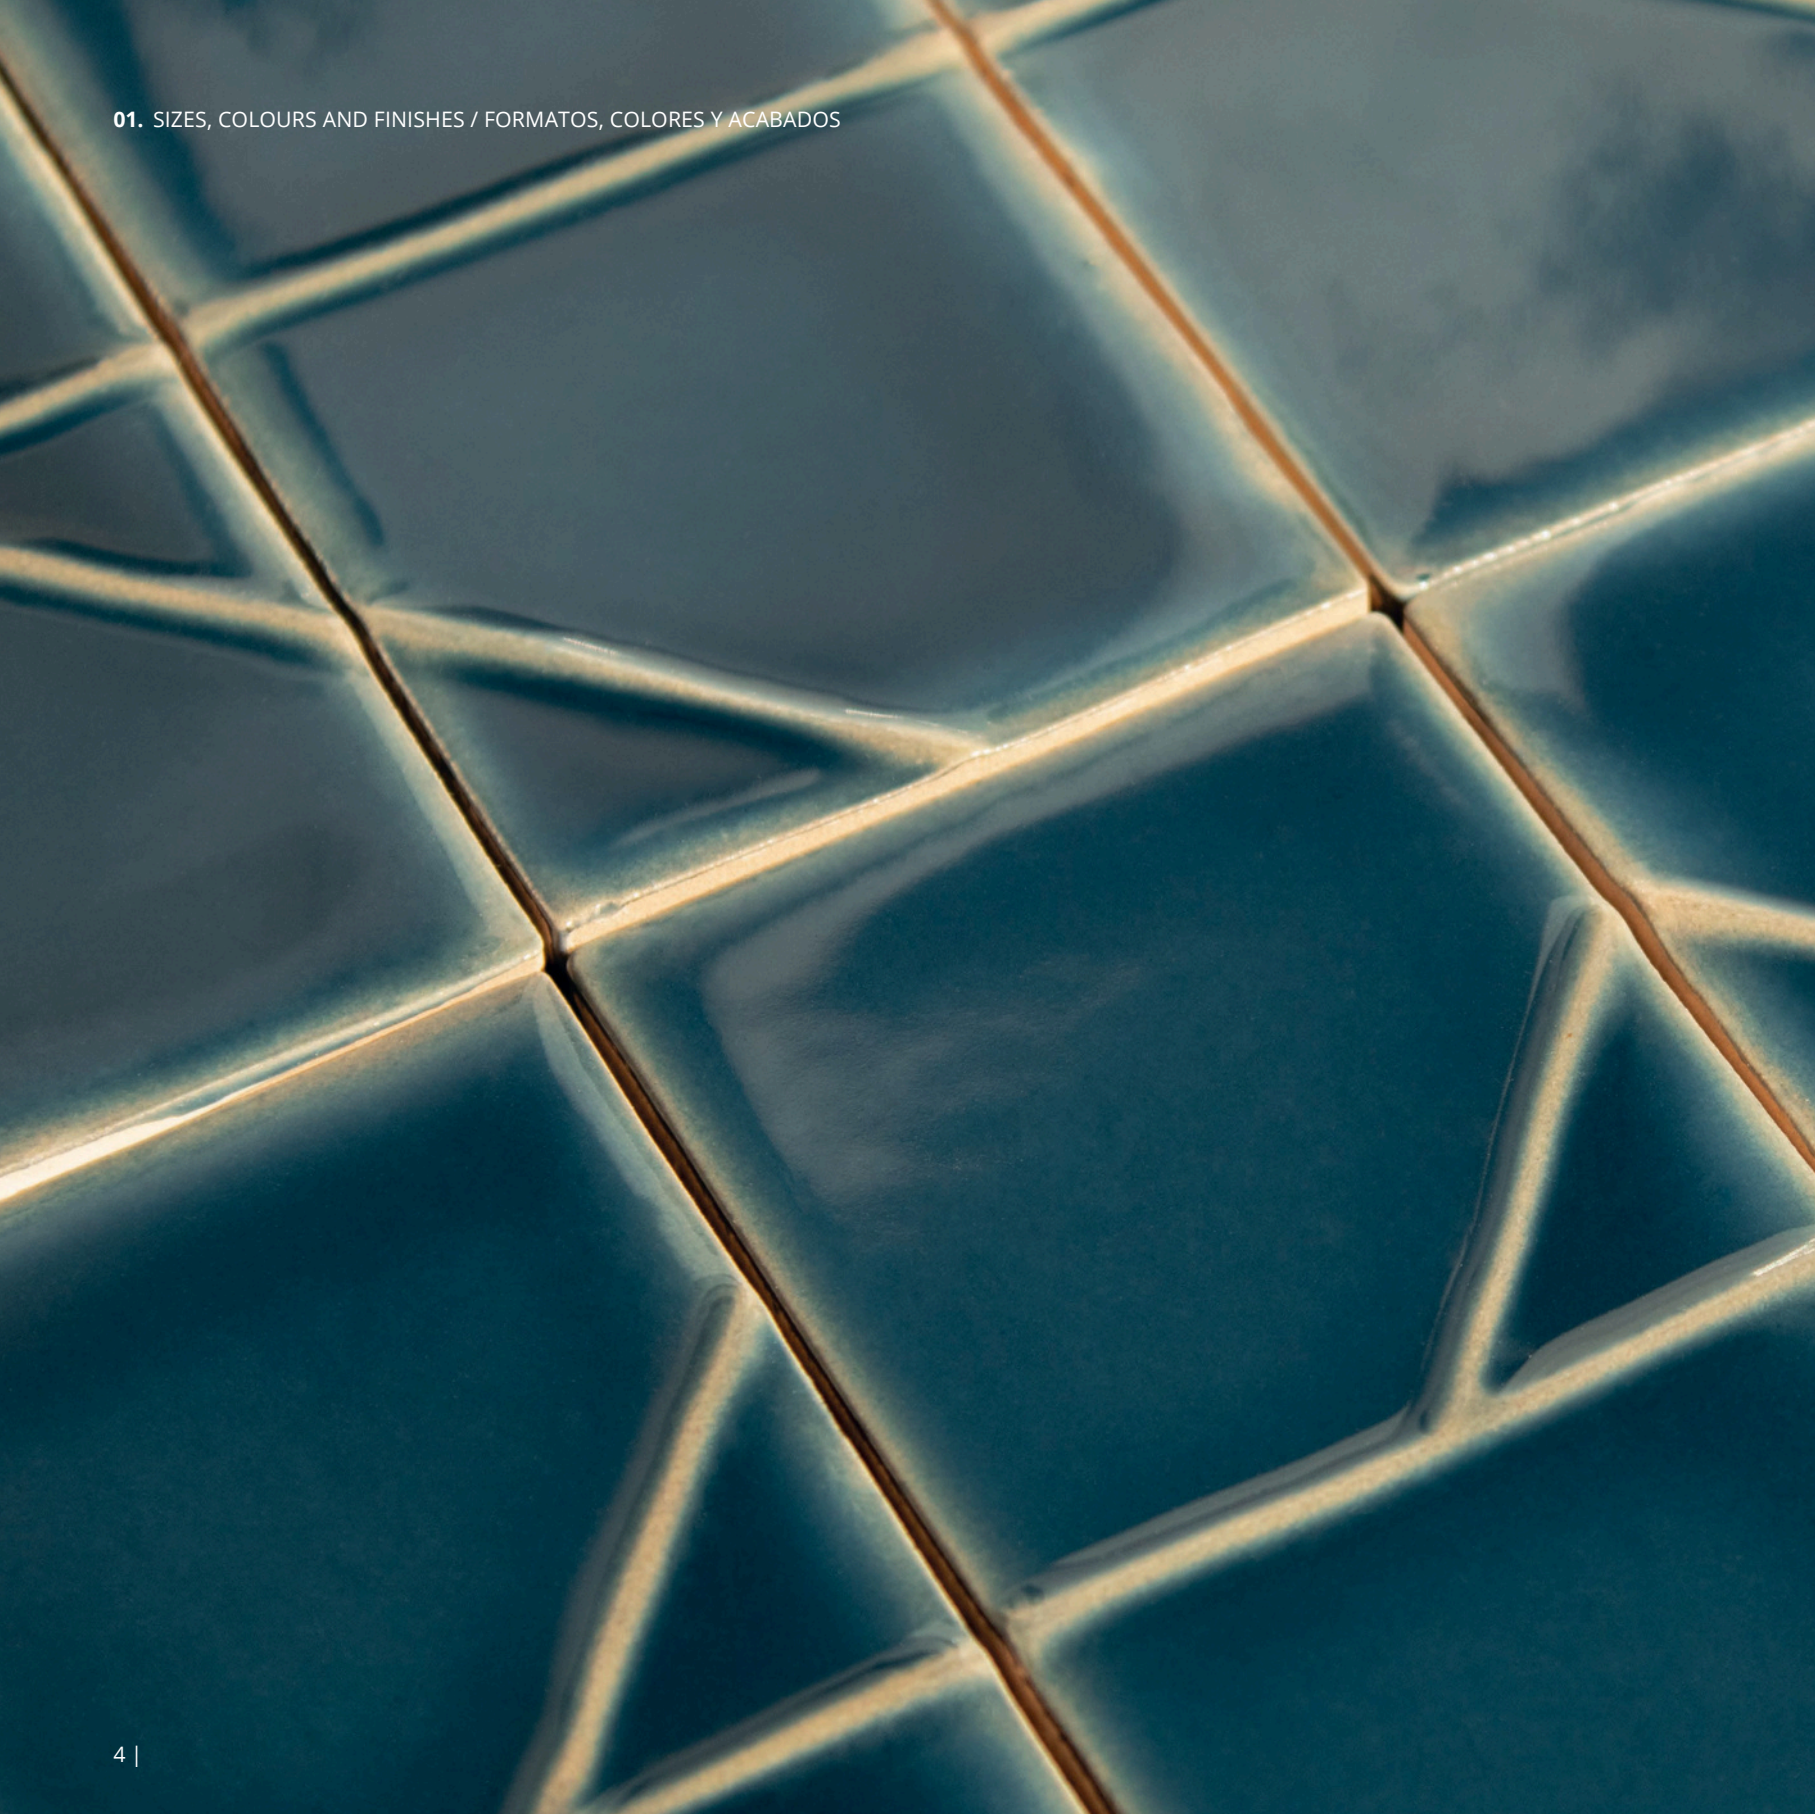

The decorations in this series, inspired by paper folds, combined with crystalline glazes, achieve lighter shades on the edges of each piece. The colors, reminiscent of traditional Japanese ceramics, are connected to nature, from the green of the trees, the blue of the sea, to the brown of the earth.

Yoko, nombre común japonés con un significado poético relacionado con la naturaleza y el mar, inspira la nueva colección que ensalza la delicadeza y fragilidad del arte del origami. Técnica que nos lleva a un estado de calma y concentración, estimulando nuestra creatividad.

Los decorados de esta serie inspirados por los pliegues en el papel, y junto a los esmaltes cristalinos, conseguimos tonalidades más claras en las aristas de la pieza. Los colores, como en la cerámica tradicional japonesa, se relacionan con la naturaleza, desde el verde de los árboles, el azul del mar y el marrón de la tierra.

BEFORE INSTALLING THE PRODUCT

The surface where the product is being installed must be clean and level.
It is recommended that the layout of the product is prepared before the final installation.
Make sure you choose an adhesive apt for the area where the product is being installed.
For installation on porous surfaces we recommend: Kerakoll Special® Eco, and for Non-porous surfaces: Kerakoll serie H40® Eco.
The choice of quality grouting mortar is crucial.
We recommend Kerakoll Fugabella® Color.
(www.kerakoll.com)

TO ENHANCE YOUR WOW PRODUCT

In order to obtain the maximum effect, use 1,5 mm - 0.06 in spacers between the tiles to maintain an even installation over the whole surface. The following grout colors are recommended for each of the references: Fugabella 39 - Daisy and Bordo; Fugabella 26 - Moos, Onyx and Pewter; Fugabella 44 - Marine. Once the area has been grouted, and before the grout dries, remove any excess material with a damp sponge.

MAINTENANCE

Maintenance free. Easy and practical to care for, due to the high standard of technical characteristics in each ceramic product. Avoid abrasive or acidic cleaning products. It is recommended to clean with clear water.
